UNIVERSITY

MANGALAGANGOTRI

Syllabus

Bachelor of Business Administration in Logistics (Apprenticeship Based BBA Programme) As per NEP 2020 and as per resolutions of BOS on BBA held on 22-10-2021

> Department of Business Administration (Faculty of Commerce) Mangalore University, Mangalagangotri

Bachelor of Business Administration (BBA in Logistics)

1. Programme Objectives:

The objectives of BBA in Logistics Programme are:

- To impart knowledge on fundamentals of logistics and their application.
- To develop competencies and knowledge of students to become warehouse professionals.
- To develop problem-solving skills through experiential learning and innovative pedagogy to ensure utilization of knowledge in professional careers.
- To illustrate the role and scope of Logistic management in organizations.
- Incorporate and manage uncertainty and risk associated with logistics operations.
- To produce industry ready graduates have highest regard for Personal & Institutional Integrity, Social Responsibility, Teamwork and Continuous Learning.
- To develop a positive attitude and life skills to become a multi faceted personality with a sense of environmental consciousness and ethical values.

2. Programme Outcomes (PO):

On successfully completion of the program, the student will be able to:

- Understand concepts and fundamentals of logistics. Identify the opportunities in the corporate environment and manage the challenges.
- Demonstrate the knowledge of logistics management to solve complex corporate problems using limited resources.
- Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- Demonstrate entrepreneurial competencies.
- Exhibit managerial skills in the areas of logistics handling, materials management, warehousing etc.
- Identify business opportunities, design and implement innovations at workspace.
- Possess a sturdy foundation for higher education.

3. Program Specific Outcomes (PSO):

On the successful completion of B.B.A.in Logistics, the students will be able to:

- **PSO1:** Acquire Practical learning through summer internship, industrial visit and Business Plan etc.
- **PSO2:** Demonstrate analytical and problem-solving skills through specialization in logistics management, warehousing and materials management to solve the business issues.
- **PSO3:** Understand and develop the new dimensions of knowledge through open electives to cater the need of the industry.
- **PSO4:** Comprehend the core concepts, methods and practices in logistic management.
- **PSO5:** Venture into his/her own business or excel in executive roles in private /government sector.
- **PSO6:** Demonstrate the ability to create business plans.
- **PSO7:** Develop an understanding of business that reflects the moral responsibility of business to all relevant stakeholders and the natural environment.
- **PSO8:** Matured Individuals and responsible Citizens to the country.

PSO9: Demonstrate Ability to work in Teams/Groups.

Acronyms Expanded

> AECC	: Ability Enhancement Compulsory Course
> DSC C	: Discipline Specific Core (Course)
> SEC	: Skill Enhancement Course
> SB/VB	: Skill Based/Value Based
> OEC	: Open Elective Course
> DSE	: Discipline Specific Elective
> SEE	: Semester End Examination
> CIE	: Continuous Internal Evaluation
► L+T+P	: Lecture + Tutorial + Practical(s)

Notes:

- 1. One Hour of Lecture is equal to 1 Credit.
- 2. One Hour of Tutorial is equal to 1 Credit (Except Languages).
- 3. Two Hours of Practical is equal to 1 Credit

Practical Classes may be conducted in the Business Lab or in Computer Lab or in Class room depending on the requirement. One batch of students should not exceed half (i.e., 50 or less than 50 students) of the number of students in each class/section. 2 Hours of Practical Class is equal to 1 Hour of Teaching, however, whenever it is conducted for the entire class (i.e., more than 50 students) 2 Hours of Practical Class is equal to 2 Hours of Teaching.

5. Pedagogy:

In addition to Conventional Time-Tested Lecture Method, the following approaches may be adopted as and when found appropriate and required:

1. **Case Based Learning:** Practical exposure can be given to students through Case based learning/critical learning tool. It enhances skills of students in analyzing the organizational problems and learning to arrive at critical decisions. They learn to apply concepts, principles and analytical skills to solve the real situation problems.

2. **Experiential/Live Projects/Grass Root Projects**: To bridge the gulf between the theory and practice, the students have to be encouraged to take up experiential projects/Live Projects/Grass Root Projects in companies/organizations/factories.

3. **Team Spirit and Building:** To internalize the core curriculum, working in teams and developing team spirit is essential. Interdisciplinary learning across outside the faculty would help students in equipping with these skills.

4. **ICT enabled teaching with global touch:** With the use of modern ICT technology students' learning in class room marches towards digitization. Getting connected to people through e-mode who are located all over the world and who bring real-time insights from their industries, their customers, happenings in their local place and environment.

5. Leadership Building: Apart from developing a strong background in the functional areas of Business and management, the Model Curriculum focuses on developing New Age Leadership capabilities among the students.

6. Emphasis on Indian Business Models: Over the past two decades, several Indian Business domains and organizations have made remarkable contribution in developing innovative business models by occupying a space in the global business scenario. The academia can make use of such examples in the pedagogy.

6. Suggestive Guidelines for Continuous Internal Evaluation and Semester End Examination.

The CIE and SEE will carry 40% and 60% weightage each, to enable the course to be evaluated for a total of 100 marks, irrespective of its credits. The evaluation system of the course is comprehensive & continuous during the entire period of the Semester. For a course, the CIE and SEE evaluation will be on the following parameters:

Sl. No.	Parameters for the Evaluation	Marks
1. Cor	ntinuous Internal Evaluation (CIE)	
А.	Continuous & Comprehensive Evaluation (CCE)	15 Marks
B.	Internal Assessment Tests (IAT)	25 Marks
	Total of CIE (A+B)	40 Marks
2. Sei	mester End Examination (SEE)	
C.	Semester End Examination (SEE)	60 Marks
	Total of CIE and SEE (A + B + C)	100 Marks

a) **Continuous & Comprehensive Evaluation (CCE):** The CCE will carry a maximum of 15% weightage (15 marks) of total marks of a course. Before the start of the academic session in each semester, a faculty member should choose for his/her course, minimum of **FIVE** of the following assessment methods with three (3.0) marks each:

- i. Individual Assignments
- ii. Seminars/Class Room Presentations/ Quizzes
- iii. Group Discussions /Class Discussion/ Group Assignments
- iv. Case studies/Case lets
- v. Participatory & Industry-Integrated Learning/ Field visits
- vi. Practical activities / Problem Solving Exercises
- vii. Participation in Seminars/ Academic Events/Symposia, etc.
- viii. Mini Projects/Capstone Projects
- ix. Any other academic activity

b) **Internal Assessment Tests (IAT):** The IAT will carry a maximum of 25% weightage (25 marks) of total marks of a course, under this component, two tests will have to be conducted in a semester for 25 marks each and the same is to be scaled down to 25 marks.

c) In case of 50 percentage of CIE weightage courses, faculty members can choose assessments methods accordingly for the required marks as mentioned above.

7. Suggestive Template for IAT

Internal Assessment Test Bachelor (BBA) in Logistics Course Code: Name of the Course

Duration: 1 Hour

SECTION-A

Answer any two of the following questions. (Questions are asked on remembering ability) $(2 \times 4 = 4)$

- 1.
- 2.

3.

SECTION-B

Answer any two of the following questions. (Questions are asked on understanding and Application) (2 x5=10)

4.

5.

6.

SECTION- C

Answer any one of the following questions. (Questions are asked for analyzing and evaluating) $(1x \ 11=11)$

7.

8.

Note: Internal Test question papers format is prepared based on Revised Bloom's Taxonomy. (https://www.apu.edu/live_data/files/333/blooms_taxonomy_action_verbs.pdf)

8. Semester End Examination (SEE):

The Semester End Examination for all the courses for which students who get registered during the semester shall be conducted. SEE of the course shall be conducted after fulfilling the minimum attendance requirement as per the Universities/Institutes' norms.

Suggestive Template for SEE

Semester End Examination Bachelor of Business Administration (BBA) in Logistics Course Code: Name of the Course

Duration: 3 Hours

Total Marks: 60

Total Marks: 25

SECTION-A

Answer any five of the following questions. Each question carries 2 marks (5 x 2=10)

- 1.
- 2. 3.
- 4.

6.

7.

SECTION- B

	Answer any four of the following questions. Each question carries 5 marks (4 x5=20)
8.	
9.	
10.	
11.	
12.	
13.	
14.	
	SECTION- C
	Answer any three of the following questions. Each question carries10marks
	(3x 10=30)
15.	
16.

Name of the Program: Bachelor of Business Administration (BBA) in Logistics

Course Code: BBAL 2.2

Name of the Course: Forecasting and Inventory Management				
Course Credits	No. of Hours per Week	Total No. of Teaching Hours		
4 Credits	4 Hrs	56 Hrs		

Pedagogy: Classroom's lecture, tutorials, Group discussion, Seminar, Case studies & field work etc.,

Course Outcomes: On successful completion of the course, the students will be able to demonstrate

- Ability to forecast the requirement of inventories.
- Ability to plan sales and operations of a business
- Ability to describe and classify inventories.
- Ability to explain the techniques of inventory classifications.
- Ability to demonstrate production policy and inventory levels.

Syllabus:	Hours	
Module No. 1: DEMAND FORECASTING	10	

Forecasting: meaning – need for forecasts – types of forecasts – time frame -Demand Forecasting-Types of Demand Forecasting-Survey methods and statistical methods-importance of demand forecasting- Demand planning v/s forecasting-Sources of demand-Supply chain dynamics-Key roles and responsibilities

12

Module No. 2: SALES AND OPERATIONS PLANNING

Sales and Operations Planning- S&OP goals and objectives--S&OP best practices-S&OP meeting activity-Collaborative Planning-Types of collaboration-Collaborative Forecasting-Collaborative planning, forecasting and replenishment-Ingredients of successful CPFR- Regression analysis and cyclic decomposition techniques. Short-term forecasting techniques- Technology Forecasting – Methodologies: - Trend Analysis, Analogy, Delphi, Soft System Methodology, Mathematical Models, Simulation, System Dynamic-Role of Technology Information Forecasting and Assessment Council (TIFAC).

Module No. 3:INVENTORY CLASSIFICATION12Purpose of Inventory-Goods-Types of Goods-Finished Goods Inventories-General Management of Inventory, Stocks
Types of Stocks, Tracking the Paper Life-Work-in-Process Inventories- Finished Goods & Spare Parts
Inventories-Multi-Echelon Inventory Systems-Spare Parts Inventories-Use of Computers in Inventory Management

Evaluation of Performance of Materials Function-Criteria and methodology of evaluation-Forecasting model run -Ongoing improvement

Module No. 4: COST AND CONSEQUENCES	12

Codification – Classification – Methodology–Requirement of codes – Coding Structure and Design –Advantages - International Codification – Cost and Consequences – Right Quantity – Economic Ordering Quantity – Derivations of EOQ-Costs associated with Inventories- Du Pont model- Turnover & Modeling in logistics

Module No. 5: PRODUCTION POLICY AND INVENTORY LEVELS

10

Influence of production policy on inventory levels – inventories and customer service level – steps to improve inventory management – optimum inventory to improve profit performance – inventory management under condition for substantial EOQ) – inventory management uncertainty (fixed order quantity model) - Calculation of safety stocks - Importance of role of inventory- Inventory Management Systems - execution -Ratio Analysis on Inventory, Profit Margin.

Skill Developments Activities:

- 1. Identify, design, and implement the appropriate inventory replenishment policy for each segment
- 2. Choose any MNC and present your observations on inventory management.
- 3. Develop material forecasting techniques.
- 4. Carry out calculation of safety stocks
- 5. Demonstrate the various forecasting techniques.

Name of the Program: Bachelor of Business Administration (BBA) in Logistics **Course Code:** BBAL 2.3 Name of the Course: Freight Forwarding (Ocean & Air Cargo) **Course Credits** No. of Hours per Week **Total No. of Teaching Hours** 4 Credits 4 Hrs 56 Hrs Pedagogy: Classrooms lecture, tutorials, Group discussion, Seminar, Case studies. **Course Outcomes: On successful completion Student will demonstrate** 1. An Understanding of components of Freight Forwarding. 2. Ability to analyse the Multimodal transportation and documents required. 3. Ability to demonstrate Operation Procedures of Freight Forwarding. 4. Ability to explain the impact of fiscal policy and monetary policy on business. 5. Ability to analyse the impact of economic environmental factors on business. **Syllabus:** Hours Module No. 1: INTRODUCTION TO FREIGHT FORWARDING 12 Introduction to EXIM, Freight forwarding and custom clearance – types of custom clearances - Importance of custom clearance - certificate of origin, ICEGATE and insurance - custom Act -Regulations pertaining to custom clearance - different modes of freight forwarding - domestic and international freight forwarding networks – process of freight forwarding. 12 Module No. 2: SHIPMENT PROCEDURES Multimodal transportation - Vendor management - bulk load handling - brief on transshipment - DG handling - customer acquisition and management - Customs clearance procedure - Documents and its importance - Stages of Documentations process and procedures - Documentation types and filing processes - Details of documents as per the format approved by the Customs - The requirement of documents for pre-shipment and requirement of documents for Import - DO's and DON'T's while handling different documents during Custom Clearance **Module No. 3: OPERATION PROCEDURES** 10 Operation Procedures of Freight Forwarding - The procedures for Pre-Operating Checks and Operational checks to be performed for every shipment /consignment - List of basic handling of errors and the Operational errors that occur in common - Procedure for checking of shipping bill, Airway bill based on invoice and packing list received from department for Freight Forwarding. Regulations (EXIM/IATA/Countries)/COM based on permutations and combinations of weight v/s volume. **CARGO HANDLING** Module No. 4: 10 Cargo handling, INCO terms and terminologies used in Cargoes - Different Types of Cargoes for transportation. Full Export and Import value of the cargo – Importer and exporter Code (IEC), The registered PAN based Business Identification Number received from the Directorate General of Foreign Trade - Different type of Cargo, Their quantity and value - Packaging requirement for the cargo during shipment from the shipper - Inspection procedure for the cargo while unloading - DO's and DON'T's while handling different cargo - Basic Regulation pertaining to Cargo movement by Air, Sea, and Land. Climatic conditions of different routes in different seasons. **DOCUMENTATION IN FREIGHT FORWARDING** 12 Module No. 5: Documentation of Freight Forwarding process as per customer timelines and requirements - Carting, unloading, Stacking, Loading; and Stuffing - Procedure for dealing with loss or damage to goods -Different P.G.A and their roles. Technical knowledge on Containers; Pallets; Palletization; Fumigation - The general reporting processes and time frames - Different airline / shipping line available for different routes - Letters of Credit and payment Terms. Etc. - Movement policy - Details of the transport available in Different routes - Organization fees, charges structure and Organizational

procedures - computer and its application in internal systems of documentation.

Skill Developments Activities:

- a) List out the custom clearances procedures.
- b) Give your observation on how technology helped Freight forwarding.
- c) Draw documentation procedure in Freight Forwarding process.
- d) Identify the basic Regulation pertaining to Cargo movement.

Text Books:
